daydreamrunaways@gmail.com

Daydream Runaways are 4 self-declared **pop culture obsessives** hailing from the UK's South West, who came together to create **nostalgic indie rock**. Formed in 2019 and off to a great start, their most recent single GRAVITY earned them radio play from **BBC Introducing & Swindon 105.5FM** as well as support in the press from Buzz Music, **RGM Magazine** and Zap Bang Magazine. The band have played numerous headline shows throughout the Wiltshire music circuit, including energetic sets at DOCA Festival and **Live at Longleat**.

Daydream Runaways' sound **blends familiar rock & pop tropes** and adds a splash of **uplifting indie**. As far as their influences go, they range from the likes of Led Zeppelin, The Eagles & The Smiths to modern bands such as Arctic Monkeys, Paramore, Bloc Party and Imagine Dragons. With a high interest in pop culture, they're also inspired by their love of video games, lego, comic books and films such as Back To The Future, The Goonies and Star Wars.

Having been crowned **2019's Best Newcomers**, the band are set to build upon this success with the release of their first ever, **full length EP towards the end of 2020**.
